

**GE Appliances**

## COMPANIES LIKE GENERAL ELECTRIC ARE WORKING TO MAKE A CHANGE

Through a partnership with the U.S. Environmental Protection Agency and the U. S. Department of Energy, General Electric joined ENERGY STAR® in 1996. Since its partnership, GE Appliances has been able to offer consumers several high-performance products that have earned the esteemed ENERGY STAR label, designed to identify energy efficient products that provide consumer and environmental benefits. As an ENERGY STAR partner, GE is proud to offer products that meet the ENERGY STAR guidelines for energy efficiency.

Whether you know it or not, you are already part of an initiative to change our environment. Companies and organizations of all sizes and types are looking for solutions to the challenges of energy production and its adverse effects on our air quality. As an employee of General Electric, you are part of a commitment that GE has taken in environmental protection.

### USING OUR ENERGY ON THE ENVIRONMENT

Businesses, consumers, and manufacturers have united in the pursuit of a common goal: to protect our environment for future generations by changing to more energy-efficient products and practices. By collectively making a change, we can decrease the demand for energy. The less we use, the less we generate, which reduces greenhouse gas emissions and improves the quality of our air. General Electric is proud of our participation in a voluntary, federal initiative called ENERGY STAR®, and of our efforts to advance energy efficiency. General Electric is pleased to offer their employees advice on how you can make a difference as well, both here at work and in your own home. Contact Martha Davis at [martha.davis@appl.ge.com](mailto:martha.davis@appl.ge.com) for additional information on ENERGY STAR.

IN 2000, WITH THE HELP OF ENERGY STAR, AMERICANS SAVED ENOUGH ENERGY TO REDUCE GREENHOUSE GAS EMISSIONS EQUIVALENT TO THOSE FROM TEN MILLION CARS.

Laundry - WHSB9000

- \* 3.2 Super Capacity Plus Washer
- \* ExtraAction™ Tub
- \* Ultra Handwash - America's Gentlest Agitation
- \* Exclusive Adaptive Logic System
- \* One-Touch Electronic Controls

Dishwasher - PDW7800

- \* Full-length flat door
- \* QuietPower™ IV Sound Insulation Package with ActiveVent System
- \* ExtraClean™ Sensor with Integrated Automatic Temperature Control
- \* Highest Performance dishwasher you can buy. (GE Profile dishwashers offer the best combination of wash and sound performance, usable capacity, energy efficiency and water consumption.
- \* America's most energy efficient dishwasher. (based on a comparison of energy usage data submitted to the Federal Government by Dishwasher manufacturers).

Side-by-Side Refrigerator PSS25SGM

- \* 25.3 cu.ft. Capacity
- \* CustomCool™ Technology
- \* FrostGuard™ Technology
- \* ClimateKeeper™ System
